May 2008...President signs Economic Stimulus Act...

President Bush signed The Economic Stimulus Act of 2008 which gives tax breaks to companies making capital investments. Our *Legend* Modular Hardwall Cleanrooms, *Flexible Solutions* Softwall Cleanrooms, Clean Benches & Workstations and Built-to-Order Isolation Equipment should qualify for the tax incentives in this stimulus package.

Consult with your tax advisor prior to a purchase to determine if this stimulus package is favorable to your individual tax situation.

Go to *The Economic Stimulus Act of 2008* for more information.

Designers & Manufacturers Of Hardwall Cleanrooms, Softwall Cleanrooms, Cleanroom T-Grid Systems & Cleanroom Workstations

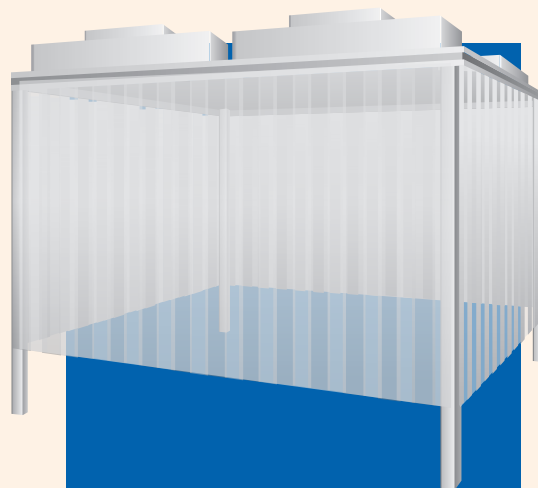

Our Flexible Solutions Softwall Cleanrooms Built-to-Order

We offer both standard designs and custom-engineered softwall cleanrooms for demanding and unique applications.

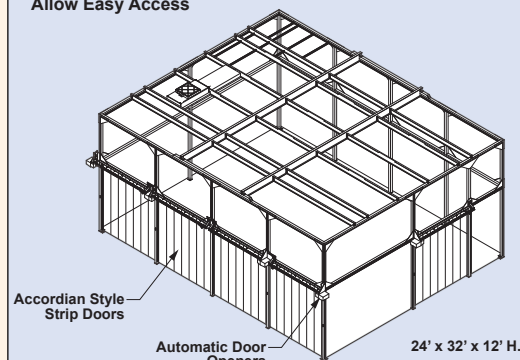

Several options are available including casters, telescoping legs, a variety of curtain choices, and our exclusive state-of-the-art *SAMlink Control System*. With our optional casters, you can easily roll the *Flexible Solutions* Softwall Cleanroom from one location to another for maximum flexibility.

If you have a unique application our engineering staff will meet your requirements with maximum efficiency and expertise to develop a Built-to-Order solution. A couple of examples of our custom-engineered softwall cleanrooms are shown here.

For more information about options, customized rooms or special applications, consult with our Sales Department.

Series Flexible Solutions Standard Specifications

Frame: Prefabricated white painted steel frame.

Leg: Bottom base plate with four (4) mounting holes.

Ceiling System: Painted support structure and aluminum T-Grid.

Curtain Panels: All sides are enclosed with clear vinyl 16 mil curtain panels. Length is pre-engineered for proper air flow relief, appropriate for size and classification

Entry Door: Via a 4' strip door consisting of 8" 80 mil clear vinyl strips overlapped 2". Individual strips are factory installed on a continuous dual lock material strip. The strip door is attached to the cleanroom frame on-site during assembly.

Interior Height: Eight (8) Feet.

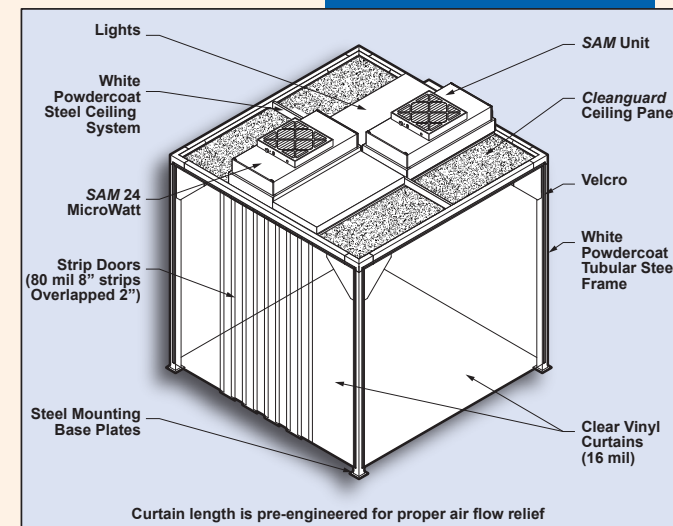

Lighting: 4-lamp cleanroom light fixtures with energy efficient T8 electronic ballasts. Fluorescent lamp tubes are not included.

Ceiling Panels: *Cleanguard* ceiling panels with sealed edges and white vinyl laminate on one side for spaces not occupied by *SAM* Fan Filter Units or light fixtures.

HEPA Filters: *SAM* 2' x 4' Fan Filter Units, 115V manufactured by Clean Rooms International.

Electrical: Electrical connections to the building power source are to be completed on site by a qualified electrician at buyer's cost.

Assembly: Detailed assembly instructions included with shipment.
